SMART PROTEIN ambition

To **industrially validate** innovative, cost-effective and resource-efficient, EU-produced, **healthy plant proteins** (fava bean, lentil, chickpea, quinoa) and **microbial biomass proteins** (MBS) (food-grade yeast and fungi) for the production of **ingredients and products** for direct **human consumption**

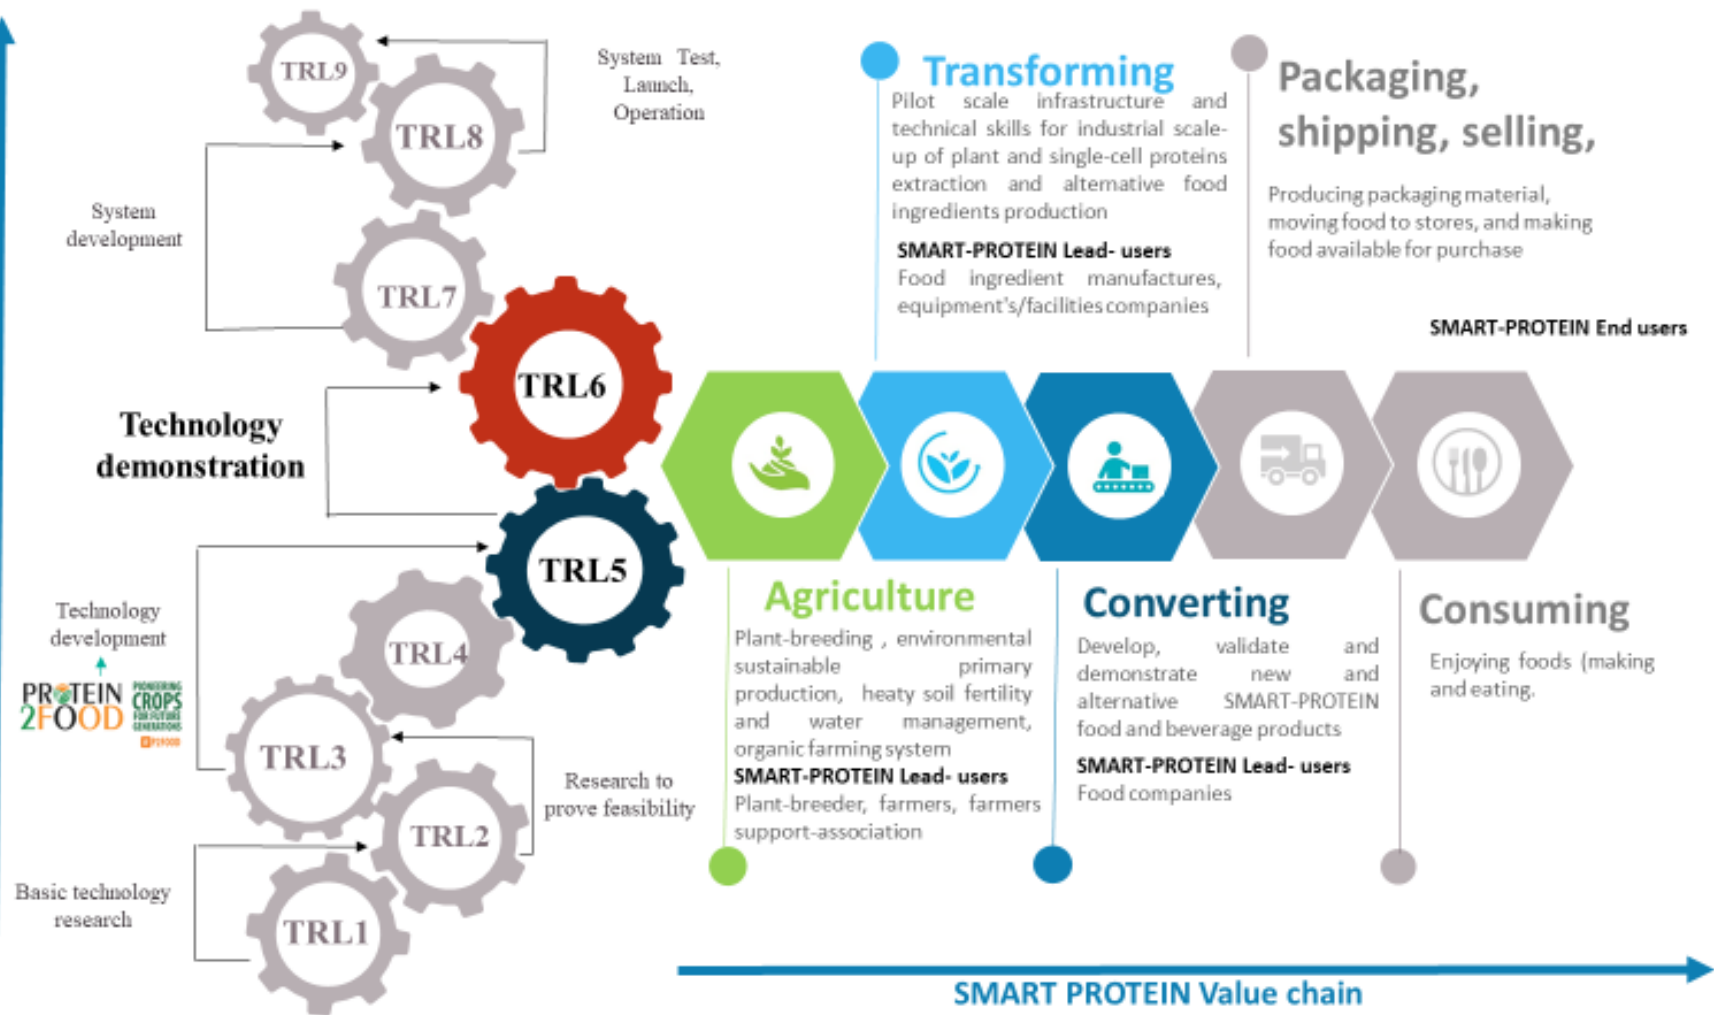

This project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement No 635727.
